Goodbye to the world of illusion

Goodbye to hate and rancor

Goodbye evil
Goodbye ignorance
Goodbye falsehood
Goodbye arrogance

I did not come to stay
Because I'm not from here
I am from another place, the beyond,
Is from where I came

My Master calls me

At the top is the throne
He is sitting in

It is the Master manifested
Using your physical beings
Speaking from your mouths the word
Who drives out the evildoer

1. YEMANJÁ

I swim within these healing waters
Yemanjá she gives to me
She gives me love she gives me happiness
And then I am set free

Yemanjá, Daime
Set me free, set me free

Wash it away this pain and suffering
They're no more use to me
I'll ride upon your spiritual wave
Of inner tranquility

Yemanjá, Daime

The crystal blue of her true heart
Is all I need to see
To sooth me as I surrender
All that has burdened me

Set me free, set me free

So here I am, so here I firmly stand
Give all your love to me

1. PRAYER OF SPRING

Peace, peace in silence
Silence in the mind
On the path of the golden garden

Breath with consciousness
With tranquility
To enter into the sacred temple
Of our beloved Lord

Awakens the spirit
The spirit of spring
With the tiny flowers blossoming

Bringing new life
New hope
And the dawning of the new day of alliance
Blessed by the Holy Mother

1. PRECE DE HARU

Paz, paz no silêncio
Silêncio na mente
No caminho do jardim dourado

Respire com consciência
Com tranquilidade
Para entrar no templo sagrado
Do nosso Senhor amado

O espírito de Haru
Com as flores pequeninas brotando

Trazendo nova vida
Nova esperança
E o amanhecer do novo dia de aliança
Abençoado pela Mãe Santa

-Hai-

2. CHOOSE TO LOVE

Please listen brothers and sisters
Life can be very enjoyable
When we open our hearts
The light comes rushing in

And we feel it in our hearts
When we choose to love
It's the key to the Creator
It's the gift from up above

The experience of our lives
Is a reflection of how we see ourselves
Do you see sadness
Or do you see happiness

And we feel it in our hearts
When we choose to love
It's the key from the Creator
It's the gift from up above

The message is very simple
When I decide to love
Love is what surrounds me
I love to choose love

And we feel it in our hearts
When we choose to love
It's the key to the Creator
It's the gift from up above

3. GOD'S GARDEN

When I walk down the path of truth
I'm in God's garden
The flowers of my lessons are growing here

Give me the love
Give me the light to shine through
For in God's garden
My force is renewed

My Eternal Holy Mother feeds me well
Inside her garden
The fruits of all my work are given to me

Give me the love
Give me the light to shine through
For in God's garden
My force is renewed

Thank you Father for the sun, stars and moon
To navigate me
With courage, when the path to your garden is obscured

Thank you for the love
Thank you for the light to shine through
For in your garden
My force is renewed

5. CHUA-CHUA

(Offered to Kea)

valsa

Mother please come and give comfort to me
The water's so dark I can barely see
Father please give me the strength that I need
To swim through illusion that keeps you from me

This flower wants to grow on your vine
I offer myself to the water of life

Chua-chua, let it all go
Wash it away in the water it flows

Jesus I'm near you the tears that you shed
Are far beyond our understanding of dread
The firmness you had in the truth and the light
A force so intense, a star so bright

With love and compassion you forgive us all
You wash us all clean in your waterfall

Chua-chua, let it all go
Wash it away in the water it flows

6. YOUR EVERY DREAM

The truth is that your every dream can be reality

Just plant a seed
Step back and let it flow
Like Oxum's river let it flow

The truth is that your every dream can be reality

Each one a flower
Opening to the sun
Under a rainbow shower its begun

The stars in Heaven make it shine
Its roots in love can make it mine

The truth is that your every dream can be reality

Just like the vine
Brought before the Queen
Juramidam navigates our dreams

The truth is that your every dream can be reality

Let your green leaves
Reach up to the sky
A canopy inviting the Divine

The stars in Heaven make it shine
Its roots in love can make it mine

7. CHILDREN OF THE ISLANDS

(Offered to José Sulla)

Awakening from the torment of confusion
The suffering is unconscious in the fight
We put our boat into the waters of illusion
And paddled into the darkness of the night

Strengthening with the passion of our love
Given guidance from above
We come one by one to rise

We are the children of the islands
Here in this garden we call the light

It's for ourselves that we forge ahead in union
It's for each other that we live our inner light
We learn our lessons and it brings deeper communion
We find our center to illuminate our lives

Opening to the spiritual world
Handed Heaven's precious pearls
Given keys to the Divine

We are the children of the islands
Here in this garden we call the light

We're given guidance by our family from the forest
Across the ocean we receive them in the truth
Oh, minha Mãe, oh meu Papai,
Dai-me força
To shine the light as we walk our sacred Earth

7. CHILDREN OF THE ISLANDS (continued...)

(Offered to José Sulla)

We call Iansá, Yemanjá, Mamãe Jurema and the grace of
Tūtū Pele, to come here and bless our work

We are the children of the islands
Here in this garden we call the light

8. COMMITTED TO THE HEALING

The center of my heart is open up
The center of my soul is rising up

I'm calling, calling, calling, with love
I'm calling, calling, calling because

It relies upon our seeing
That there's a deeper rooted meaning
And it lies within our focus
Of our greatest good as one
To be committed to the healing
Extends beyond our personal being
And it lies within our focus
Of our greatest good as one

God help me to expand into the whole
And make a pathway for all the suffering souls

I'm calling...

It relies upon our seeing...

Heal me body, mind and soul
And release me from the burdens that I hold

I'm calling...

It relies upon our seeing...

9. COM TODA FÉ

I have the queen, I have the vine
And both of them grow inside of me
Forming a Union Divine
Within the Universal Heart beating
It is my reason, my mission
To awaken consciously
For it's the path of the shaman
To enter the dark com toda fé

And in the darkness what I find is my Lord Waiting to guide
me
This is a love that is ancient and is
Only for my eyes to see
It is around me, within me
All I have to do is believe
It is my healer, my teacher and only
It can set me free

Viva the Sun, viva the Moon, viva the Stars
Shining down on me
Viva the family that surrounds me
Holding me so lovingly
We walk the path, we dance the dance
We teach each other honesty
We form a ring a sacred marriage
And enter the light com toda fé

Set me free, set me free

Wash it away this pain and suffering
They're no more use to me
I'll ride upon your spiritual wave
Of inner tranquility

Yemanjá, Daime
Set me free, set me free

The crystal blue of her true heart
Is all I need to see
To sooth me as I surrender
All that has burdened me

Yemanjá, Daime
Set me free, set me free

So here I am, so here I firmly stand
Give all your love to me
I'll live within the space of your healing grace
And free I'll forever be

1. YEMANJÁ (continued...)

Yemanjá, Daime
Set me free, set me free

1. PRAYER OF SPRING

Peace, peace in silence
Silence in the mind
On the path of the golden garden

Breath with consciousness
With tranquility
To enter into the sacred temple
Of our beloved Lord

-Hai-

Awakens the spirit
The spirit of spring
With the tiny flowers blossoming

Bringing new life
New hope
And the dawning of the new day of alliance
Blessed by the Holy Mother

-Hai-

1. PRECE DE HARU

Paz, paz no silêncio
Silêncio na mente
No caminho do jardim dourado

Respire com consciencia
Com tranquilidade
Para entrar no templo sagrado
Do nosso Senhor amado

-Hai-

Acorda o espirito
O espirito de Haru
Com as flores pequeninas brotando

Trazendo nova vida
Nova esperança
E o amanhecer do novo dia de aliança
Abençoado pela Mãe Santa

-Hai-

2. CHOOSE TO LOVE

Please listen brothers and sisters
Life can be very enjoyable
When we open our hearts
The light comes rushing in

And we feel it in our hearts
When we choose to love
It's the key to the Creator
It's the gift from up above

The experience of our lives
Is a reflection of how we see ourselves
Do you see sadness
Or do you see happiness

And we feel it in our hearts
When we choose to love
It's the key from the Creator
It's the gift from up above

The message is very simple
When I decide to love
Love is what surrounds me
I love to choose love

And we feel it in our hearts
When we choose to love
It's the key to the Creator
It's the gift from up above

3. GOD'S GARDEN

When I walk down the path of truth
I'm in God's garden
The flowers of my lessons are growing here

Give me the love
Give me the light to shine through
For in God's garden
My force is renewed

My Eternal Holy Mother feeds me well
Inside her garden
The fruits of all my work are given to me

Give me the love
Give me the light to shine through
For in God's garden
My force is renewed

Thank you Father for the sun, stars and moon
To navigate me
With courage, when the path to your garden is obscured

Thank you for the love
Thank you for the light to shine through
For in your garden
My force is renewed

5. CHUA-CHUA

(Offered to Kea)

valsa

Mother please come and give comfort to me
The water's so dark I can barely see
Father please give me the strength that I need
To swim through illusion that keeps you from me

This flower wants to grow on your vine
I offer myself to the water of life

Chua-chua, let it all go
Wash it away in the water it flows

Jesus I'm near you the tears that you shed
Are far beyond our understanding of dread
The firmness you had in the truth and the light
A force so intense, a star so bright

With love and compassion you forgive us all
You wash us all clean in your waterfall

Chua-chua, let it all go
Wash it away in the water it flows

6. YOUR EVERY DREAM

The truth is that your every dream can be reality

Just plant a seed
Step back and let it flow
Like Oxum's river let it flow

The truth is that your every dream can be reality

Each one a flower
Opening to the sun
Under a rainbow shower its begun

The stars in Heaven make it shine
Its roots in love can make it mine

The truth is that your every dream can be reality

Just like the vine
Brought before the Queen
Juramidam navigates our dreams

The truth is that your every dream can be reality

Let your green leaves
Reach up to the sky
A canopy inviting the Divine

The stars in Heaven make it shine
Its roots in love can make it mine

7. CHILDREN OF THE ISLANDS

(Offered to José Sulla)

Awakening from the torment of confusion
The suffering is unconscious in the fight
We put our boat into the waters of illusion
And paddled into the darkness of the night

Strengthening with the passion of our love
Given guidance from above
We come one by one to rise

We are the children of the islands
Here in this garden we call the light

It's for ourselves that we forge ahead in union
It's for each other that we live our inner light
We learn our lessons and it brings deeper communion
We find our center to illuminate our lives

Opening to the spiritual world
Handed Heaven's precious pearls
Given keys to the Divine

We are the children of the islands
Here in this garden we call the light

We're given guidance by our family from the forest
Across the ocean we receive them in the truth
Oh, minha Mãe, oh meu Papai,
Dai-me força
To shine the light as we walk our sacred Earth

8. COMMITTED TO THE HEALING

The center of my heart is open up
The center of my soul is rising up

I'm calling, calling, calling, with love
I'm calling, calling, calling because

It relies upon our seeing
That there's a deeper rooted meaning
And it lies within our focus
Of our greatest good as one
To be committed to the healing
Extends beyond our personal being
And it lies within our focus
Of our greatest good as one

God help me to expand into the whole
And make a pathway for all the suffering souls

I'm calling...

It relies upon our seeing...

Heal me body, mind and soul
And release me from the burdens that I hold

I'm calling...

It relies upon our seeing...

9. COM TODA FÉ

I have the queen, I have the vine
And both of them grow inside of me
Forming a Union Divine
Within the Universal Heart beating
It is my reason, my mission
To awaken consciously
For it's the path of the shaman
To enter the dark com toda fé

And in the darkness what I find is my Lord Waiting to guide
me
This is a love that is ancient and is
Only for my eyes to see
It is around me, within me
All I have to do is believe
It is my healer, my teacher and only
It can set me free

Viva the Sun, viva the Moon, viva the Stars
Shining down on me
Viva the family that surrounds me
Holding me so lovingly
We walk the path, we dance the dance
We teach each other honesty
We form a ring a sacred marriage
And enter the light com toda fé
